EDUCATION

University of Colorado, Boulder, Boulder, CO

Ph.D., Computer Science, August 2020

Thesis Topic: *Scaling Up: Moving Automated Gaze-Based Engagement Detection Out Of the Lab*
Advisor: Sidney D'Mello, Ph.D

University of York, York, United Kingdom

M.Eng.,*First Class Honours* Computer Science with Artificial Intelligence, July 2015

Thesis Topic: *Evolutionary Techniques for Developing Computer Poker Agents*
Advisor: Dan Franks, Ph.D

University of California, Santa Cruz, Santa Cruz, CA

Exchange Year, Computer Science, 2012-2013

RESEARCH INTERESTS

Human Centered AI, Learning Analytics, Machine Learning, Affective Computing, Fair AI, Adaptive Learning Technologies, Learning Sciences, Human Computer Interaction

EMPLOYMENT

Assistant Professor August 2025 - Present
Department of Educational Psychology
University of Minneapolis Twin Cities

Assistant Professor September 2022 - August 2025
Department of Computer Science
University of Denver

Assistant Director August 2021 - August 2022
Penn Center for Learning Analytics
University of Pennsylvania

Postdoctoral Researcher August 2020 - August 2022
Graduate School of Education,
University of Pennsylvania
Supervisor: Ryan Baker, Ph.D

RESEARCH FUNDING

Institute of Educational Science. 2024-2026
Studying how Patterns in Self-Regulated Learning Differ Across Groups of Students in Multiple OpenStax Courses
Baker, R.S. (PI), Hutt, S (Co-PI) $916,771, ($303,126 to DU)
Award #R305N240049,

National Science Foundation. 2024-2026
Collaborative Research: Data-Driven Interviewing to Study the Embodied Cognitive Shifts that Occur During Geometry Learning
Hutt S. (DU PI). Collaborative Award with two other institutions. Total funding $763,407 ($166,866 to DU)
Award #SBE-2341412

AERDF, EF+ Math. 2024-2025
CueThinkEF+
Sethuraman, S. (PI), Hutt, S. (Co-PI, Subcontract Lead) $900,000 ($180,000 to DU)

AERDF, EF+ Math. 2023
Making learning visible: scalable, multi-system detection of self-regulation related to EF
Baker, R.S. (PI), Hutt, S (Co-PI) $899,702, ($23,923 to DU)

National Science Foundation. 2022-2024
Collaborative Research: Frameworks: Cyber Infrastructure for Shared Algorithmic and Experimental Research in Online Learning
Baker, R.S. (PI), Hutt, S (Subcontract lead) $1,399,995, ($116,625 to DU)
Award #DRL-1931419

JOURNAL ARTICLES

1. A. F. Zambrano, A. Barany, J. Ocumpaugh, N. Nasiar, J. Vandenberg, A. Goslen, J. Esiason, J. Rowe, and **S. Hutt**, "Unlocking Gameplay Insights with Epistemic (Ordered) Network Analysis: Understanding the Potential of Video Games to Foster Authentic Scientific Practices in STEM Education," *Journal of Science Education and Technology*, Mar. 2025, ISSN: 1573-1839. DOI: 10.1007/s10956-025-10213-4 (IF = 4.2) [1]

INTERNAL FUNDING

Internationalization Grant 2023-2024
$2,400
University of Denver

Faculty Research Fund 2022
$3,000
University of Denver

AWARDS

Best Paper Honorable Mention, L@S 2023 July 2023
Best Paper Award, AIED 2021 June 2021
Outstanding Service Award, Department of Computer Science May 2019
Outstanding Service Award, Department of Computer Science May 2018
James Chen Best Student Paper Award, UMAP 2017 July 2017
SIGCHI Student Scholar March 2017
Outstanding Student Award July 2011

PERSONAL FUNDING

Gary Marsden Travel Award June 2022
$1,600
SIGCHI

Department of Computer Science Student Travel Award May 2019
$1,600
University of Colorado Boulder

Department of Computer Science Student Travel Award March 2018
$1,000
University of Colorado Boulder

College of Engineering Student Travel Award March 2018
$400
College of Engineering and Applied Sciences,University of Colorado Boulder

Dean's Graduate Assistantship, CU Boulder August 2017
$21,800
College of Engineering and Applied Sciences,University of Colorado Boulder

SIGCHI Student Travel Grant August 2016
$1,800
SIGCHI

Social Responsibilities of Research Fellowship May 2016
$1,500
John J. Reilly Center for Science, Technology, and Values

Student Travel Scholarship April 2011
$4,500 (paid in GBP)
University of York

RESEARCH EXPERIENCE

Assistant Professor August 2025 - Present
Department of Educational Psychology
University of Minnesota

I lead a research group centered on Education-Focused Artificial Intelligence, investigating how AI can both enhance and deepen our understanding of learning. Our work is grounded in theory-driven educational research, drawing on learning sciences frameworks to guide AI discoveries and applications. I collaborate with colleagues across Computer Science, Learning Sciences, Psychology, and Cognitive Science to advance educational technologies informed by rigorous research.

Assistant Professor September 2022 - August 2025

Department of Computer Science
University of Denver

I lead a small research team investigating Human Centered AI, with a focus on educational applications and educational technologies. I work with a number of external collaborators, spanning the fields of Computer Science, Learning Sciences, Psychology, and Cognitive Science.

Assistant Director August 2021 - August 2022
Penn Center for Learning Analytics
University of Pennsylvania

I held leadership role within the center, mentoring and supporting students while also maintaining my own research. I provide guidance and feedback to both PhD and Masters students affiliated with the Center. I also support the broader research goals of the center and center funding proposals. I worked closely with the devlopment team for the MOOC Replication Framework (MORF) - a data repository and analysis framework - and assist external researchers wishing to leverage MORF for their work.

Postdoctoral Researcher August 2020 - August 2022
Graduate School of Education,
University of Pennsylvania
Supervisor: Ryan Baker, Ph.D

Conducted research at the intersection of Artificial Intelligence and Education. Used Computer Science knowledge and techniques to create educational software and experiences that are both dynamic and beneficial for the learner. This research had a special focus on the fair treatment of students who are members of underrepresented groups.

PhD Researcher January 2018 - August 2020
Institute of Cognitive Science,
University of Colorado, Boulder
Supervisor: Sidney D'Mello, Ph.D

Explored how artificial intelligence and big data techniques can apply in education. Researched Fair AI in the context of educational software and worked with two large-scale datasets to explore how current methods commonly used in education contexts scale up. Designed and implemented real-time gaze-based Mind Wandering detection and interventions.

PhD Researcher September 2015 to August 2017
Department of Computer Science,
University of Notre Dame
Supervisor: Sidney D'Mello, Ph.D

Designed and implemented a multimodal experiment on detecting affect and engagement during classroom learning. Collected eye gaze, video, and interaction data from students whilst they interacted with a Biology Intelligent Tutoring System. Built machine learning models of mind wandering using eye gaze data of students interacting with computers in multiple tasks.

Masters Researcher September 2014 to July 2015
Department of Computer Science,
University of York
Supervisor: Dan Franks, Ph.D

Designed and implemented a framework to train agents to play Texas Hold'em poker. Using genetic algorithms and evolutionary computation approaches, I trained multiple

agents playing against each other as well as expert and pre-trained agents.

TEACHING EXPERIENCE

Assistant Professor, University of Minnesota Fall '22 - Spring '25

Programming Fundamentals for Social Science Research
Department of Computer Science,
University of Minnesota
Graduate

Designed and implemented a interactive class that introduces programming and computational thinking to social science graduate students. Students learn Python programming, data analysis, and visualization techniques through hands-on projects and assignments relevant to social science research. Class is taught using flipped classroom approacha nd active learning techniques.

Assistant Professor, University of Denver Fall '22 - Spring '25

Introduction to Artificial Intelligence
Department of Computer Science,
University of Denver
Undergraduate and Graduate

Designed and implemented a broad survey class, considering a range of Artificial techniques, and how they relate to current socio-political discussions. Students engage in regular discussion and debate, as well as programming assignments and building theoretical foundations.

Introduction to Programming I
Department of Computer Science,
University of Denver
Undergraduate

Designed and implemented (in collaboration with colleagues) the introductory course for Computer Science major and minors. Work with students from across campus to build their proficiency in programming and Computer Science topics more broadly.

Advanced Topics In Artificial Intelligence
Department of Computer Science,
University of Denver
Graduate Class (Advanced Undergraduates enrolled by instructor permission)

Lead students in advanced discussion of the applications of Artificial Intelligence, including ethics and human impacts.

Introduction to Computer Science
Department of Computer Science,
University of Denver
Undergraduate

Lead a introductory course that introduces to the fundamentals of problem solving, Computer Science as a broad field, and ethics in Computer Science and Data Science

Instructor Spring '19

Introduction to Artificial Intelligence
Department of Computer Science,
University of Colorado Boulder

Designed and implemented the curriculum, assignments and examinations. Held weekly classes, managed course staff of four people, and mentored students during office hours. 106 students enrolled

Teaching Assistant Fall '17

Introduction to Computer Science
Instructor: David Knox, Ph.D
Department of Computer Science,
University of Colorado Boulder

Taught two lab sections with approximately 30 students each, prepared weekly assignments and autograders, assisted with the devlopment of examinations, and mentored students during office hours.

Teaching Assistant Fall '15
Design and Analysis of Algorithms
Instructor: Danny Z. Chen, Ph.D
Department of Computer Science,
University of Notre Dame

Assisted with the development of written assignments and examinations. Mentored students during weekly office hours and review sessions. 94 students enrolled
